Regulatory File 2015-02954-MHK

North Lake Management District  
c/o Mark Theisen  
W315N7293 Highway 83  
Hartland, Wisconsin 53029

Dear Mark Theisen:

We are responding to your request for authorization to hydraulically dredge 50,000 cubic yards of accumulated sediment from North Lake. The proposed work is located in Section 16, Township 8 North, Range 18 East, Waukesha County, Wisconsin.

The regulated activity associated with the project described above includes the discharge associated with return water from an upland contained dredged material disposal area. The work appears to be authorized by a Nationwide Permit (NWP) and/or a Regional General Permit (RGP), specifically, NWP 16, Return Water From Upland Contained Disposal Areas. No application or notification to the St. Paul District Corps of Engineers is required for your project.

This letter does not verify permit eligibility, but indicates that your project may meet the requirements of this permit. It is your responsibility to ensure that the work is performed in accordance with the terms and general conditions of this permit before starting work. **It is also incumbent upon you to verify that your activity has received any necessary Water Quality Certification or waiver prior starting work in waters of the U.S.** If a Water Quality Certification has not been issued for your activity, you are responsible for contacting the certifying agency. A full list of applicable terms, conditions, issued Water Quality Certifications, and certifying agencies may be found by visiting our website at <http://www.mvp.usace.army.mil/Missions/Regulatory/>.

A change in location or project plans may require re-evaluation of your project. Proposed changes should be coordinated with this office prior to construction. Failure to comply with all terms and conditions of this permit invalidates this authorization and could result in a violation of Section 301 of the Clean Water Act or Section 10 of the Rivers and Harbors Act. You must also obtain all local, State, and other Federal permits that apply to this project.

If you have any questions, please contact me in our Brookfield office at (651) 290-5733 or by email at [Marie.H.Kopka@usace.army.mil](mailto:Marie.H.Kopka@usace.army.mil).

Sincerely,

Marie H. Kopka  
Lead Project Manager
