HIGH WATER - SLOW, NO WAKE, BOATING

In accordance with the Town of Merton Ordinance 20.04 and the Village of Chenequa Ordinance, North Lake is in a HIGH WATER - SLOW NO WAKE CONDITION.

North Lake is now at the high-water elevation (the water is still rising) which requires "slow, no wake, boating". The water will probably continue to rise for another 3 to 4 days before it reaches its peak. A green buoy will be placed between the 2 lakes which also indicates "slow, no wake".

We will send an email and remove the green buoy when the water is under the high-water mark. Please be considerate of your friends and neighbors and do your boating at a slow, no wake speed until the water level recedes.

Thanks for your cooperation.

North Lake Management District
